Children for Underprivileged Children Project

Buy it... Built it...

T-shirt Project

This is one of the Children for Children Project in aid of HEART FOUNDATION 2011 school building project.

Children volunteers from the tender age of 5 to teenagers of 18 years old have come together to share their good wishes & intention for the underprivileged children through their individual HEART designs, which are then “pieced together” as leaves to the BIG Tree of Love, whom will then provide a place to receive education, food & shelter to the underprivileged as part of the BETTER LIFE PROGRAM.

Each of the 38 hearts carries messages that resonates deeply within the young designers, that they too can help to make a difference by joining hands to increase the “canopy” of the BIG Tree of Love (better life program), in order to reach out to more underprivileged children. This school will help to provide free education to under privileged children, provide free teachers training & resources to teachers serving remote villages.

Join us in this amazing experience to help change & upgrade the life of the under privilege.

TO ORDER PLEASE FILL IN YOUR DETAILS, return the order form to us
or email this order form – donate@heart-foundation.net .
